#### TRODAT - ALWAYS AN ORIGINAL:

Trodat products are thoroughly original: More than 40 years ago the stamp industry was revolutionised by the introduction of the first plastic self-inking stamp (the Printy 1). Trodat stamp products are innovative and suitable for all applications. In order to offer stamp products that always produce clean and beautiful impressions, the sister company Trotec Laser GmbH develops the right technology for stamp producers. The in-house shop solution uTypia can be used by both business and private customers to customise and buy the perfect stamp online, which, since the launch of Trodat Multi Color, can even be multicoloured!

Continuity, trust and innovation are characteristics of the cooperation that exists between Trodat and its sales partners in more than 150 countries worldwide and the same has been true for more than 100 years.

# FOR OUR ENVIRONMENT

# THE AUSTRIAN ECOLABEL

The Austrian environmental quality label for products represents extensive criteria:

- Quality, usability, durability
- Health and safety for users
- Environment (ecological criteria)

More than 80 guidelines with binding criteria form the basis for the certification of a product. They are created with the involvement of environmental and technical experts and revised every four years. The "life cycle approach" is used: products, including packaging, information and service, are considered throughout their entire life cycle, from raw material production to disposal.

We are pleased that we were able to attain the Austrian ecolabel for more than 80 Trodat products in October 2018.

#### The following products have been awarded the Austrian Ecolabel:

#### THE BENEFITS OF MULTI COLOR IMPRESSION AT A GLANCE

- + Differentiation. Meet your customer demands for differentiation and individuality. Select your own colour fields for the impression.
- + Trade Symbol. Offer your customers unique impressions with colourful symbols and company logos which emphasise their corporate identity.
- + Process security and repeat orders. The patented Multi Color manufacturing process guarantees the exact colour and shape throughout the production process and for repeat orders, and that of the replacement ink cartridge.
- + Top quality impression. Your multi-colour impression in line with Trodat's high standard of quality.
- + Variety of colour. Include any of the 15 available colours for your impression design.

# THE WAY IT WORKS

#### TAIL ORMADE

Individual colour and design requirements are a Multi Color Impression specialty.

The text and logo fields can be arranged as required.

The resulting fields in the ink cartridge are then inked automatically with the selected colours.

#### **PRFCISION**

The laser cuts the ink cartridge with precision and seals the colour fields at the same time. This prevents the contamination of each of the individual colour fields.

#### QUALITY

The Multi Color Jet inks each of the individual colour fields with the optimum amount of ink. The result is a set of clean impressions to the usual Trodat level of quality.\*

\*Cartridges can also be inked manually.
